

Help

1. The plan for this chapter will be to learn about how to get help in ePEARL.
2. We provide embedded support for each feature, which is available for students, teachers, peers and parents. Every time you see a question mark, you can go and get support. Let's explore an example. If you are setting general goals with your students and you want to know more about it click on the **question mark**. You can read with your students how to set general goals. We also provide some examples for you and your students.
3. ePEARL also contains short video clips to model and support pivotal self-regulation steps. (Level 2 & 3). If a student clicks on the **question mark**. This support is divided in four features: **Examples of general goals, pedagogical strategies, technological direction** and finally a **video** on this topic.
4. You can also use these videos in your class as a part of a your introduction of tasks such as setting goals, writing meaningful reflections and providing peer feedback.
5. In this chapter you learned about how to get help in ePEARL. Now it's your turn! Open your demo account and practice! You can also print the instructions by clicking on the **print** button.
