- ABRA version 4.8:
 - ABRA English: bug fixes in the English assessment module, bug fixes and UI adjustments in several activities (Auditory Blending, Speed, Spelling Sentences, Students’ Stories, Tracking, and Word Changing).
 - ABRA French: bug fixes in the French assessment module, minor UI adjustments in the “Mission fusion” activity.
- ELM version 2.7: fixed an issue related to the “Welcome to ELM” screen.

LTK+ 4.6 (released 2018-12-13)

- Minimum PHP version increased to 5.6.0.
- Added support for Microsoft Edge; Internet Explorer is no longer supported.
- ABRA version 4.7:
 - ABRA English: initial version of the new English assessment module, adjustments for trace data, iPad optimizations (iOS 10+), bug fixes and improvements.
 - ABRA French: adjustments in the French assessment module, adjustments for trace data, iPad optimizations (iOS 10+), bug fixes and improvements.

NOTE: Existing trace data for ABRA English from LTK+ 4.5 is not compatible with the new assessment module and will be cleared upon upgrade.

- ELM version 2.6: bug fixes and improvements.
- ePEARL version 5.22: revised font list in the text editor (now includes OpenDyslexic), removed Flash dependency in the “Add Questions” section of level 1 Readings and Creations.
- ISIS-21 version 2.8: maintenance release.

- READS version 2.2: bug fixes and improvements.

LTK+ 4.5.1 (released 2018-10-23)

- ABRA version 4.6: Bug fixes for the help when clicking on a word in the “Tracking” activity in English and the “Lecture assistée” activity in French.
- ELM version 2.5: Fixed an incorrect instruction in “Number Line – Number as Displacement”.

LTK+ 4.5 (released 2018-08-30)

- Minimum PHP version increased to 5.5.0, added support for PHP 7.2.
- New set of avatars for ABRA and ELM (replaces old set).
NOTE: Existing users will have their avatar reset to default upon upgrade
- ABRA version 4.5:
 - ABRA English: added trace data, added links to Teacher Resources and Parent Zone sites, bug fixes and improvements.
 - ABRA French: adjustments for trace data, bug fixes and improvements.
- ELM version 2.4:
 - “Welcome to ELM!” page re-designed.
 - Bug fixes and improvements.
- ePEARL version 5.21: maintenance release.
- ISIS-21 version 2.7: maintenance release.
- READS version 2.1: new books and stories, bug fixes and improvements.
- Miscellaneous: added optional config option for ICP filing numbers in China.
NOTE: To use this, add an entry called filing_number in config.php

LTK+ 4.4.2 (released 2018-04-10)

- ABRA version 4.4: Fixed an issue that affected several activities when running the installation with PHP 5.4.

LTK+ 4.4.1 (released 2018-01-23)

- ELM version 2.3: Fixed several UI bugs and inconsistencies.

LTK+ 4.4 (released 2017-12-20)

- Added support for PHP 7.1.
- READS: the software is now integrated in the LTK+ (full version).
- ABRA version 4.3:
 - Updates to ABRA French trace data.

- Bug fixes and improvements.
- ELM version 2.2:
 - New theme added (Number Line).
 - New activity added in “Data – Bar Graphs and Tables” (Step 2).
 - “Meet the Hosts” page re-designed.
 - Bug fixes and improvements.
- ePEARL/ELM Link: updated ePEARL level 1’s “ELM Creations” with the new additions to ELM.
- Miscellaneous: LTK+ tools now check if a given user has access to that tool (similar to what the lobby page was already doing), removed CSLP research account, fixed a typo in the installer.

LTK+ 4.3.3 (released 2017-10-24)

- ELM version 2.1: Fixed an issue related to the conversion of the old “Offline Friends” to the new “Extra Friends”.
NOTE: Existing old Offline Friends are now mapped to new Extra Friends

LTK+ 4.3.2 (released 2017-09-22)

- ABRA version 4.2: Fixed a typo in the ABRA French assessment module.
- Miscellaneous: Fixed a redirect issue on IIS servers.
NOTE: For HTTPS servers, you now must set https_enabled to true in config.php

LTK+ 4.3.1 (released 2017-09-14)

- ABRA version 4.1:
 - Fixed an issue when accessing English stories from within ePEARL.
 - Fixed an issue in the French activity “Bingo des lettres”.

LTK+ 4.3 (released 2017-08-31)

- ABRA version 4.0:
 - ABRA English: HTML 5 version integrated into LTK+, replaces ABRA Flash version.
 - ABRA French: assessment module added.
NOTE: there is currently no assessment module in ABRA English with these changes.
- ELM version 2.0: new themes added (Geometry, Patterns, Data), interface re-designed.
- ePEARL/ELM Link added: new type of artifact “ELM Creation” in ePEARL level 1.
- ePEARL version 5.19: minor UI adjustments.

- ISIS-21 version 2.5: maintenance release.
- Miscellaneous: HTTPS optimizations, various bug fixes and UI improvements.

LTK+ 4.2.2 (released 2017-05-11)

- ISIS-21: fixed an error related to the “Mark a New Source” overlay.
- ePEARL: minor CSS adjustments.

LTK+ 4.2.1 (released 2017-03-23)

- ABRA version 3.4: fixed database content in previous version causing issues in several English activities.

LTK+ 4.2 (released 2017-03-14)

- Minimum PHP version increased to 5.4.0, added support for PHP 7.0.
- Minimum MySQL version increased to 5.5.
- ABRA version 3.3: adjustments to French activities (fixed audio issues in “Lecture assistée”, “Syllabes à compter”, and “Bingo des lettres”; improved word variety in “Salon des mots”; various UI improvements).
- ELM version 1.4: bug fixes for Number Concept – Place Value (includes fix for activity 7 not resetting properly), various UI improvements.
- ISIS-21: minor UI adjustments.
- ePEARL/ABRA link: fixed an issue when accessing ABRA French stories from within ePEARL.
- ePEARL: fixed saving issues in POP “Pondering” section, various UI improvements.
- Miscellaneous: READS now opens in a new tab/window when accessed from the LTK+ lobby page, improved server requirements validation in the installer.

LTK+ 4.1.3 (released 2016-11-10)

- Fixed an error that occurred in the installer when using the LTK-Lite version
- ISIS-21: fixed an issue that caused the Flexible Mode layout to be misaligned in some browsers
- ABRA version 3.2: fixed a character encoding issue in the French activity “Lecture assistée”
- ePEARL: minor adjustments to some database queries

LTK+ 4.1.2 (released 2016-09-15)

- ABRA version 3.1: fixed an issue in the French activity “Syllabes à compter”

LTK+ 4.1.1 (released 2016-08-25)

- ELM version 1.3: bug fixes for Number Concept - Place Value (includes fix for an error which prevented user progress in activity 4)

LTK+ 4.1 (released 2016-08-16)

- French adaptation of ABRA: the software is now integrated in the LTK+ (full version), added audio to character descriptions, added new activity
- ELM version 1.2: added new activities, added audio to the “Animal Friends” cards, various UI improvements
- ePEARL/ABRA link: added linkage to French ABRA from French ePEARL level 1
- ePEARL: fixed an issue that was preventing the text editor UI from being translated into the correct language when being displayed
- Install/upgrade: optimized ABRA Content DB installer/upgrader to avoid timeouts
- Miscellaneous: removed/converted all “zero dates” from the database in order to support the NO_ZERO_DATE sql mode enabled by default in many newer MySQL configurations

LTK+ 4.0.3 (released 2016-03-10)

- ELM version 1.1: fixed an activity-loading issue when installed on Linux servers

LTK+ 4.0.2 (released 2016-02-15)

- Fixed issue with ELM plans created using ELM prototype

LTK+ 4.0.1 (released 2015-09-24)

- ABRA version 2.10: updated acronym and contact info

LTK+ 4.0 (released 2015-08-18)

- Added support for PHP 5.6
- LTK+ Lobby and Login pages redesigned (French and English)
- French adaptation of ABRA released as external URL, accessible via the LTK+ Lobby (French) for level 1 and 2

- ELM: initial full release of the tool (no longer considered prototype), now turned on by default and accessible via the LTK+ Lobby (French and English) for level 1 and 2
- ePEARL: legacy recordings no longer use the Java recorder/player – instead, they can now be downloaded
- Quebec users: Fixed character encoding issue when importing from GPI using the SQLSRV extension

LTK 3.1.3 (released 2015-04-24)

- Fixed issue when editing existing text editors.

LTK 3.1.2 (released 2015-02-18)

- Fixed error during upgrade when upgrading directly from LTK 2.24 or older.

LTK 3.1.1 (released 2015-01-29)

- Quebec users: Fixed issue in GPI import script that caused the LTK passwords of existing users being updated during import to be reset to a new randomly generated password. This is a bug-fix release in order to address this issue, which was introduced in LTK 3.0 due to the PHP upgrades.

LTK 3.1 (released 2015-01-12, latest patch 2015-01-15)

- ISIS-21: added Flexible Mode, added French version
- ePEARL/ISIS-21 link: the Final Product section in ISIS-21 projects now corresponds to the Content section of the artifact in ePEARL
- Admin: valid characters for School Code, Class Code, and User Code are now A-Z, a-z, 0-9, _ , -, and space
- Miscellaneous: various bug fixes and UI improvements

LTK 3.0 (released 2014-08-15, latest patch 2014-10-08)

- Minimum PHP version increased to 5.2.17, added support for PHP 5.4 and 5.5
- Admin: dropdown options are now searchable, added pagination and merged Create/Delete tab into List tab (for Schools, Classes, Teachers and Students), added new filters (for Teachers and Students)
- ePEARL: Unified export across levels, level 2 folder names can now be personalized by individual users, various bug fixes
- ISIS-21: Initial release of ISIS-21 re-design, re-established ePEARL/ISIS-21 link, ISIS-21 is now turned on by default
- ELM: New tool in the LTK, currently turned off by default

- Quebec users: performance improvements for GPI imports

LTK 2.29 (released 2013-08-16, latest patch 2014-01-13)

- ABRA updated to version 2.9 as of Patch 20140113
- New audio recorder for ePEARL based on Flash
- Quebec users: POP Explorations integrated into the main Artifacts index page in the ePEARL level 3 environment
NOTE: Non-Quebec users can turn off POP in the admin environment
- Miscellaneous: various bug fixes and UI improvements

LTK 2.28 (released 2013-05-03)

- Admin: added ability to filter for active/inactive students
- ePEARL bug fixes
- Miscellaneous: UI fixes/tweaks

LTK 2.27 (released 2013-02-15)

- Setup: added note about bundled phpMyAdmin
- Admin: added dialog for indicating a successful GPI import
- ePEARL bug fixes
- Miscellaneous: performance improvements

LTK 2.26 (released 2013-01-25, latest patch 2013-01-28)

- ePEARL minor changes (teachers can now view student's file cabinet) and bug fixes

LTK 2.25 (released 2012-10-01, latest patch 2012-11-29)

- Admin: removed "Quebec/Non-Quebec" setting, added "ePEARL Level 3 Features" settings: checkboxes for File Cabinet and POP
- ePEARL major changes (new Level 3 environment, use system tags as folders in Level 2, add toolbars/recorders to Level 1, etc.)
NOTE: for the new Level 3 environment, only artifacts that are presented will be archived upon upgrade
- ABRA version 2.8
- ISIS-21 version 1.9: maintenance release
- Miscellaneous: added LTK Time Tracking / CSLP Research Account
